The ISSS was founded in 2006 and is the world's preeminent organization dedicated to the surgical evaluation and treatment of patients with sleep disorders and especially snoring and obstructive sleep apnea. The ISSS holds international scientific meetings like this one, that enable surgeons from around the world to discuss advances in sleep surgery and to share their research findings. These meetings have provided the foundation for ongoing ISSS research initiatives that will help patients with snoring and obstructive sleep apnea and the surgeons who care for them.

This comprehensive 1-day continuing medical education program offers industry sponsors an opportunity to reach clinicians with the latest sleep disorder techniques and products.
